Worksheet B - Writing a report

If you asked 8 people question one and they all said yes you could write *All of the people* interviewed have travelled into town by car in the past two weeks. What would you write if they all said *no*?

Put these phrases on the line below:

some people	half the people	only one person
most of the people	only a few people	

All of the people

None of the people

You can now report your findings. For example:

The results of the survey show that **only one person** has used public transport in the last two weeks but **most of the people interviewed** have travelled into town by car.

Sometimes we use *has* instead of *have*. Can you complete the sentence:
_____ has taken bottles to the bottle bank.

When do we use *has*?

Using the answers you collected in your survey complete the report with phrases from above.
