

Internet Safety¹

When you're online, always keep your personal stuff private and think about what you say and do. Remember that people online may not be who they say they are. Online friends are still strangers, even if you have been talking to them for a long time.

Don't share personal information online. This includes:

- your full name
- photos
- addresses
- school information
- telephone numbers
- places you like to spend time

To stop people accessing your online accounts, always keep your passwords secret and change them regularly.
